MEMORANDUM TO AGENCY RECORDS OFFICERS: Transfer of Permanent Electronic Records to the National Archives (Use of NA Form 14097)

The attached NA Form 14097, "Technical Description for Transfer of Electronic Records to the National Archives," has replaced the now abolished SF 277 for providing technical information pertaining to permanent electronic records. NARA's regulations require that agencies submit this information with each transfer of electronic records to the National Archives (see 36 CFR 1228.188 and 36 CFR 1234.22). It is important, however, to note that it is the *information* which is required, not the form itself. Agencies may substitute their own reporting format or use the NA Form 14097 provided, which identifies the required information.

NARA's Center for Electronic Records (NSX) is responsible for distributing the form. In order to provide additional guidance to Federal agencies, NSX has also prepared a packet of information on preparing electronic records for transfer to NARA that includes a checklist for transfers, instructions on completing transfer forms, guidelines for compiling documentation and technical format requirements. This packet is intended to be used in conjunction with the NARA Instructional Guide, Managing Electronic Records.

If you have questions about NA Form 14097 or are interested in acquiring copies of the form or the transfer instruction packet, please contact the Center for Electronic Records (Room 20E, National Archives and Records Administration, Washington, DC, 20408, 202-501-5565. The NARA Instructional Guide, Managing Electronic Records, may be obtained from NSX or by calling the Records Administration Information Center (RAIC) on 202-501-6025.

## INSTRUCTIONS

#### **GENERAL:**

The purpose of this form is to facilitate the transfer of electronic records with continuing or enduring value to the National Archives. A packet containing honal information on the transfer of electronic records is available from the National Archives. This form is not intended to take the place of other irred documentation. FIPS PUB 20 contains a discussion of file documentation. Technical information describing each file is required by 36 CFR, but NA Form 14097 is optional. If there is an alternative reporting format that provides all of this required information, substitute the report for NA Form 1409 include the required information as an attachment to the SF 258. A separate form should be completed for each file. If multiple files have very similar technical specifications, one form with an attachment that specifically identifies all of the files covered by the form may be used.

## **IDENTIFICATION SECTIONS**

- Official Title, Commonly Used Identifier, and/or Descriptive Title. Enter the name by which the agency identifies the file. Consider how the title would appear in a bibliographic entry. If there is no official title, provide a descriptive title.
- 02 Acronym Assigned to File. Enter the commonly used abbreviation or acronym as assigned by the agency Often, the acronym will be used on the external (gummed) label of the storage media unit
- 03 Restrictions on Access. Specify any restrictions that apply to this file cite FOIA exemption, and, if b(3), cite statute, indicate specific columns or types of records in the file that are affected, specify length of restriction on access and method of determining the date when restrictions end if there are no applicable restrictions on access, please indicate
- O4 Title/Description of Documentation Provided. Documentation is required for all transfers of electronic records to the National Archives Enter the title or description of the documentation provided by the agency for the file Guidelines are available on the source and content of documentation. If any documentation is available in electronic form, include it in the transfer.
- 05 Format of Documentation Provided. Mark all boxes that apply to the transfer with an "X" if "Electronic Format" is checked, include a technical description form for each documentation file in electronic format if "Other" is checked, be as specific as possible in describing the documentation transferred
- 06 Electronic Records Submitted by Enter the name and address of the agency that is responsible for the transfer
- 07 Identify Technical Contact(s). Identify the person who will respond to technical questions about the records if they arise during archival processing

# **FILE CHARACTERISTICS**

- O8 Short Title on External Label of Storage Media Unit. Enter the short title that appears on the external (gummed) label of the storage media unit(s)
- 09 Return Storage Media to Agency After Archival Processing. The National Archives returns the reels or cartridges included in the transfer to the agency when two preservation copies have been created Check "No" to indicate that the storage media should not be returned or provide an address for return shipment. If Yes, Provide Address for Return (if different from Item 06)
- Storage Media Unit Volume Serial Number. Enter the volume serial number which uniquely identifies this tape/tape cartridge. If the file is recorded on multiple volumes, enter the first volume serial number in this item and list all others, in sequence, in Item 26.
- 11 Type of Medla Provided. To comply with the transfer standard identified in 36 CFR, a storage media unit should be an open-reel magnetic tape or 3480 tape cartridge. Enter an "X" in the appropriate box. If "Other" is checked, contact the National Archives prior to transfer and provide a specific identification of the storage media used for transfer.
  - **Density (CPI/BPI).** Enter an "X" in the appropriate box to indicate characters or bytes per inch
- 13 Number of Tracks. Enter an "X" in the appropriate box. For 7 track tapes, indicate whether the parity is odd or even in Item 26

- 14. File Organization on Storage Media. Enter an "X" in the appropriate box if a single file on a single storage media unit described, check "One File on One Media Unit" if a multi-volume file is described, check "One File on Multiple Media Units" if more that one file is on the storage media unit, check "Multiple Files on Or Media Unit" if the transfer includes multiple files on multiple storage media units, check "Multiple Files on Multiple Media Units"
- 15 Recorded Label (Internal Label). Enter an "X" in the appropriation of the internal labels in Item 26
- 16 Character Set. Enter an "X" in the appropriate box. If "Binary" i "Packed Decimal" is checked, indicate the characters (bytes) the are stored in those formats in Item 26
- 17 Date File Copled. Enter the date that appears on internal labels, the files are labelled. This is the date the records were copied on the storage media unit(s)
- 18 Internal File Name/Identifier (aka Data Set Name). If there is recorded label, enter the file identification (e.g., Data Set Name used in the label. File Names in IBM standard labels should follo IBM DSN naming conventions.
- 19 Sequence of File on Storage Media Unit. If this is the only file c the storage media unit, enter a "1." If the storage media unit contair multiple files, enter the file's position number on the storage med unit. See Item 14
- 20 Number of Logical Records per Block (Blocking Factor). If "Fixe Length" is checked in Item 21, enter the blocking factor
- 21 Record Type. Enter an "X" in the appropriate box if "Other The Fixed Length" is checked, a specific description of the format is ve important, especially if the documentation provided does not conta a precise description. Use Item 26 to describe "Other" formats.
- 22 Length of Logical Records In Characters or Bytes. Enter the logical record length in bytes or characters if the record is not fixed length, enter the maximum size record, and describe technique used to control and indicate size in Item 26
- 23 Length of Physical Records in Characters or Bytes. Enter the physical record length in bytes or characters if the record is not fixed length, enter the maximum size record, and describe technique used to control and indicate size in item 26.
- 24 Number of Logical Records. Enter the number of logical records the file. This number is usually supplied by the program which create the file. Labels are not included in this count. If the last block padded with blank records to fill out the block, please provide a tot record count and a count of records that contain information.
- 25 Number of Physical Records (Blocks). Enter the number a physical records (blocks). Labels are not included in this count.
- Comments. Provide additional information as necessary or desired if the information pertains to another item on the form, identify the relevant item number. Files transferred to the National Archive should not be software-dependent in accordance with 36 CFR if there are any exceptions to this, identify the release and/or level of an software required to read the file. Provide attachments if the information required will not fit in Item 26.
- 27 Form Prepared By. Enter the name and phone number (includin area code) of the individual who prepared this form
- 28 Date Form Completed (YY/MM/DD). Enter date this form wa prepared
